

6345 11TH AVE

Kitchen Remodel & Master Suite/Family Room Addition

This busy family is enjoying more space in their new addition. The added square footage houses an expanded kitchen, homework station, mudroom and master suite with 3/4 bathroom. This is a great example of repurposing the pass-through bedroom in traditional ramblers!

Approximate Cost? [Confidential]

Favorite Feature?

The extra storage provided in the kitchen and basement.

Splurge?

The new vinyl siding was a splurge, as we were originally planning to match the cedar shake siding. We also splurged on new carpet for our basement.

Save?

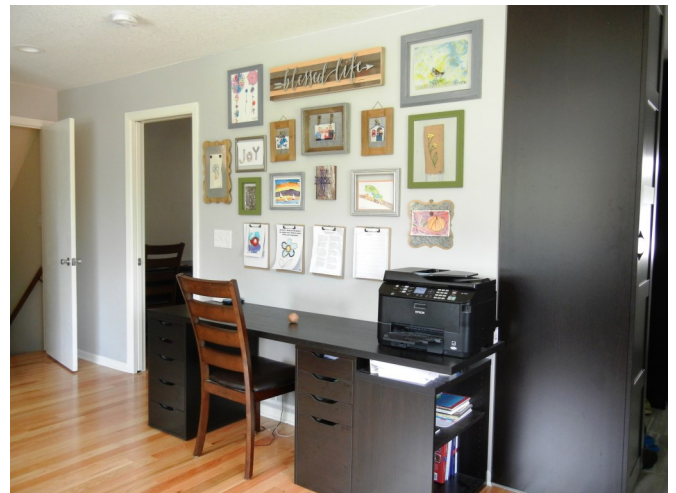

We saved money by completing the basement portion of the remodel ourselves (framing, drywall, paint). We did all of the painting for our project, installed the mudroom cabinets, and also installed the tile backsplash to save money.
